

NewFarmer Garlic Peeler Introduction

Stainless Steel Material, Imitate Human Hand Peeling, Easy Operation

1

One Worker Operate

8

Equale 8-10 Worker
Efficiency

SUS 201 or 304

Food Grade Stainless For
Choice

95%

Can get 95% Peeling rate

Peeling Performance

The peeled garlic surface is smooth.

It's beauty peeling surface, no hurt and damage.

Peeled garlics can be vacuumed and store longer.

One Worker is enough

It's easy to operate the garlic peeler, just need feed garlics into hopper and start the machine.

The garlic capacity is 20-2000kg/h for choosing.

Up To 95% Peeling

Peeling with 4 Spray Nozzles

Special Spiral air blowing design makes garlic peeling rate is more than 96%,
Continuously improve the machine based on customer feedback.

From 3mm.to 50mm garlics,
small and big size garlics all can be peeled

Stainless Steel Material

The garlic peeling machine is made of stainless steel, you can choose the 201SUS and 304SUS material.

They are not rusty and it is healthy and meet the national requirement of food machinery.

High Quality Spare Parts

Good Pneumatic Parts Make It Work Longer

1, Precision Filter

Sealing Strength, No Air Leakage

Over-pressure protection to prevent bursting

Durable filter element to filter water and oil

High Quality Spare Parts

Good Pneumatic Parts Make It Work Longer

2, Precision pressure regulator filter

Sealing Strength, No Air Leakage

Beautiful and durable

Adjust the pressure more precisely

Durable filter element to filter water and oil

High Quality Spare Parts

Good Pneumatic Parts Make It Work Longer

3, High Quality Solenoid Valve

Aluminum alloy body design

High-frequency pilot head, flexible and not stuck, supports 5 times per second

High-quality coils that can be energized for a long time

High Quality Spare Parts

Good Pneumatic Parts Make It Work Longer

4, Pure Copper Solenoid Air Valve

100% Pure body design

Fast cooling and supports 5 times seal per second

High-quality coils that can be energized for a long time

High Quality Spare Parts

Good Pneumatic Parts Make It Work Longer

5, 304 Stainless Steel Pipe Fitting

100% 304 Stainless steel pipe

Not be rusty and no pollution to garlic

More beautiful and durable when using
